Plases Parents and Protects Children

Plases Parents and Protects Children

The **Koala Bear Kare Child Protection Seat** provides peace of mind for parents by allowing them to seat their baby safely in the restroom stall or fitting room with them. The seat eliminates the danger and discomfort of leaving the baby unattended outside the stall, laying the infant on the floor, or balancing the baby with one hand.

The compact design fits into the smallest stalls and fitting rooms. The concave seat, snap lock safety straps, and smooth polyethylene construction add up to a comfortable and secure seat for infants and toddlers.

Exceptional Features

Engineered to withstand a static load of up to 150 pounds.

Concave back and seat tilt child back for safety.

Safety straps extend over shoulders and between legs for extra security.

Requires less than 2 square feet of wall space.

Fits into the tiniest of stalls and fitting rooms.

When closed, seat extends less than 6 inches.

Polyethylene construction resists odors, cleans easily and has no sharp corners.

Child stays in full view at all times!

Great for holding purses, shopping bags, and briefcases too.

Five-year warranty on all parts and labor.

Attractive door decal lets parents know where the Child Protection Seat is available.

\$26 Million Product Liability Policy.

Made in the U.S.A.
